

Tia Falls - Oxley Wild Rivers National Park

Tia Falls has two main walking tracks. The Falls Walk takes you along the east of the gorge to Tia Falls Lookout and Tia Gorge View. This track offers the nearest and best view of the falls. 30-40 minutes return.

The longer Tiara Walk crosses the Tia River footbridge and follows the western side of the gorge. The track passes through remnant tableland forest passing Tiara View and finishes at Tiara Lookout. 1 ½ to 2 hrs return.
